## Experience

<b>MRS Oil Nigeria Plc</b>	<b>June 2025 - Present</b>
<i>GCEO's Office Intern</i>	<i>Tincan Island, Lagos State</i>
<ul style="list-style-type: none"><li>Processed and validated 200+ purchase requisitions converted to purchase orders within an enterprise ERP system ensuring accurate procurement data, auditability, and confidentiality.</li><li>Conducted exploratory data analysis (EDA) on operational datasets using Excel and Python (pandas) to generate insights for internal reporting and management decision-making.</li><li>Automated data consolidation and analysis across multiple Excel files using Python, improving data quality, consistency, and analysis efficiency.</li><li>Supported a comparative data analysis of EV vs CNG vehicles, evaluating cost, efficiency, operational performance, and contributing to stakeholder presentations.</li></ul>	

## Projects

<b>Logistics &amp; Delivery Performance Analysis</b>   <i>Python, Pandas, SQL, Matplotlib, Excel</i>	<b>- 2026</b>
<ul style="list-style-type: none"><li>Analyzed and cleaned 100k+ delivery records from the Olist e-commerce dataset to identify fulfillment delays, cost inefficiencies, and customer satisfaction drivers across regions</li><li>Identified that 8% of orders were late, with Sao Paulo and Rio de Janeiro accounting for the highest delay concentration and operational friction</li><li>Quantified business impact by linking late deliveries to a drop in customer satisfaction (4.26 =&gt; 2.56) and a 12% increase in freight costs</li><li>Built analytical reports and visualizations to highlight root causes, cost-to-speed trade-offs, and optimization opportunities for logistics operations.</li></ul>	
<b>Sales Performance Analysis (2015–2018)</b>   <i>Python, Pandas, Matplotlib, Excel</i>	<b>- 2026</b>
<ul style="list-style-type: none"><li>Cleaned and Analyzed 4 years of sales transaction data (&gt;100k records) to identify revenue trends, growth patterns, and sales volatility</li><li>Evaluated 3,000+ products across multiple categories to determine top revenue drivers and underperforming segment</li><li>Built visual reports highlighting regional performance gaps, customer concentration risk, and category-level contribution</li></ul>	
<b>Chess Performance Analysis Using Chess.com API</b>   <i>Python, Pandas, NumPy, Matplotlib, Seaborn</i>	<b>- 2025</b>
<ul style="list-style-type: none"><li>Analyzed 2,000+ Chess.com games across multiple formats to track rating progression, win/loss ratios, and performance trends</li><li>Identified rating improvement from ~1200 to 1300+ by analyzing openings, result distributions, and recurring loss patterns</li><li>Cleaned, structured, and engineered features from raw API data, including ratings, results, openings, and move counts</li><li>Built visualizations to communicate insights on performance consistency, strengths, and areas for improvement over time</li></ul>	

## Technical Skills

<b>Programming and Query Languages:</b> Python, SQL
<b>Data Analysis Tools:</b> Excel, Google Sheets, Pandas, NumPy, Jupyter Notebook (Anaconda)
<b>Databases &amp; Analytics Platforms:</b> SQLite, BigQuery (SQL)
<b>Data Visualization:</b> Matplotlib, Seaborn, Tableau (Beginner)
<b>Developer Tools:</b> PyCharm, VS Code, GitHub

## Soft Skills

<b>Soft Skills:</b> Great communication, Time Management, Data-driven decision-making, Strategic problem-solving
<b>Interests:</b> Consulting, Undertaking Minor Projects, Sports, Chess, Start-Up Ideas, Expert Systems
<b>Languages:</b> English (Fluent), Yoruba (Native)

## Education

<b>Babcock University</b>	<b>Jan, 2021 - July 2024</b>
<b>BSc Computer Science(Information Systems): Second Class Honours (Upper Division)</b> <i>Ogun State, Nigeria</i>	
<ul style="list-style-type: none"><li>Applied project: Design and Implementation of a Web-based Audio and Text Summarization System</li></ul>	

## Relevant coursework

<ul style="list-style-type: none"><li>Modeling and Simulation   Machine Learning with Python   Operations Research</li><li>Data Admin Workshop   Database System Design &amp; Management   SQL Fundamentals</li></ul>
